12. (Internal Use Only - JSW) Talked with Representative Porter Hardy, Jr., confirming with him that we are all set for the briefing on 9 October 1967. Also delivered to Mr. Hardy, a copy of the Director's letter to Chairman Rivers dated 25 September. I indicated to him the general nature of our concern with S.1035 and requested that, at his convenience, Mr. Hardy review the letter. I offered to be of any assistance possible in providing him with additional information. Mr. Hardy seemed sympathetic to the problems the Agency might have and stated he would be in touch further.

13. (Internal Use Only - JSW) Talked with Messrs. Reddan, Martineau and Garcia confirming the Director's appearance on 9 October. In response to a question, I indicated our expectations were that we should complete this initial phase in one day of appearance. I also discussed with them in general terms the origins of NIEs and their relationship to the Agency with the other components in the community. I offered to discuss this further with them and they indicated they would like to do this before the 9th.

14. (Internal Use Only - JSW) Talked with Mr. Woodruff, Senate Appropriations Committee staff, indicating the Director had signed the letter to Mr. Staats on 3 October concerning disposition of financial records. I also gave him a general rundown on the "Wiggle Seat" story so that he would be prepared to handle questions from members. He will look into this further and advise.
